

**To use this program:**

Click on the 'Add Entries' button and add or change entries for each event.

On the Entries sheet, assign a unique number for the competitor. Numbers are assigned to indicate the competitors age (e.g. 32XX would be assigned to a 30-34YO competitor)

Enter a '1' for each event entered in the relevant column adjacent to the competitor.

Then press the 'Build Event' to add this entry (or all entries if the first time) to the relevant event sheet.

Sort the sheet by Group and Manually add the heats and lanes.

Re-sort by Heat before printing start lists.

**Rules which must be maintained when using this program**

1. The names used on the 'Entries' sheet (row2) must match the sheet names for each event
2. Do not add rows above the header row. The header rows must be row 2
3. Do not insert or move columns on any sheet(Ok to add columns onto the end)
4. If new events are added, copy a similar sheet and change the sheet name and event name
5. Age groups will be based on the data adjacent (change if necessary)

event

title

17/04/2026
